

Light Brahma (Female)

Breed Characteristics

Comb Type: Pea

Egg Color: Brown

Egg Size: Medium

Production: Good

Bird Size: 9 pounds

Broody: Frequently

Hardiness: Cold/Heat Hardy

Personality: Gentle

They make a good dual purpose breed. They are known for good winter production. Brahmas do alright in confinement but do much better if they have access to an outdoor run. They are mellow, quite hardy and make good pets. Brahmas are comfortable in heat and cold.
