

Bantam Golden Sebrights (Straight Run)

One of the most stunning breeds of chickens in the world. The breed originated in England in the 19th century. The Sebright breed has black lacing with either gold or silver base color. They lay very small, tinted eggs, but do not lay well and are not setters. They are kept primarily for pleasure and exhibition. Sebrights have clean legs with slate blue skin, and their beaks are a dark horn color.

Purpose: Ornamental

Production: 100 Small Cream Eggs/Year

Temperament: Docile, Friendly, Easily Tamed, Great Pets

Mature Weight: 1.5 lbs.

Hardiness: Cold and Heat Hardy

Broodiness: Rarely Comb Type: Rose Comb
